

We are: *YOUR ORGANIZATION NAME*

- *Tell us about your organization*

My proposed project idea (if applicable; max 100 words):

Briefly describe your project in less than 100 words. Summarize its aims, outcomes, significance and benefits. If you are looking to partner with a team on a project idea, you can simply write "Looking to partner."]

What we bring to the table:

- *Describe what you plan to contribute to a project*
- *Why should potential partners work with you? What services or resources do you offer? Can you provide an in-kind or cash contribution?*

What we are looking for:

- *Tell us what types of partners you're looking for. For example, you may need a technical service provider and an eligible applicant/fiscal agent in order to carry out your project idea*

We are: Wabash River Coalition

- Founded in 1999 to promote educational and recreational activities in the Wabash River area, we bring together people of diverse backgrounds who share a passion for Wabash River.

My proposed project idea (if applicable; max 100 words):

To enhance quality of place in the Wabash River area, we propose to place sensors on a fleet of canoes that deliver information about water level, water quality, and safety to residents in the Wabash Heartland to make it easier for them to access and navigate the waterway, heightening their enjoyment of the outdoors and increasing their amount of physical activity. To add the educational dimension, canoers could download a GPS-enabled app that provides personalized audio-visual information based on location, so they could hear about the history of Indiana along the Wabash River.

What we bring to the table:

- Our passion and love for Wabash River!
- Access to canoes and enthused canoers who will gladly help with the development and beta-testing
- Knowledge of Wabash River and experience working with various stakeholders

We are looking for:

- Technical partners for sensor design, deployment and maintenance.
- Technical partners for mobile and web applications

We are: Lovely City Elementary School

- Lovely City Elementary School is located in the northwestern section of our school district
- The school opened in 1985 to 128 students. Currently, the school provides a positive, creative learning environment for more than 600 students

My proposed project idea (if applicable; max 100 words):

Looking to partner.

What we bring to the table:

- Over 80 passionate, committed teachers who are eager to bring innovative educational tools to our students
- The school facilities and staff time for in-kind match contribution
- As a local education agency, we could serve as the fiscal agent of the grant

We are looking for:

- Projects with a K-12 education component, especially those that involve a new IoT education curriculum, and/or makerspace in elementary school

Contact Information:

Lovely City Elementary School
500 5th St. Lovely City, IN 47890
